General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and

(2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

ROBERT M. PEARCE AND ANTHONY W. THORNTON -- CONTROL EXEMPTION--
BOWLING GREEN FREIGHT, INC., AND T.L.T. TRUCKING, INC.

Petitioners' representative:

Robert M. Pearce, president
Bowling Green Freight, Inc.
Plum Springs Road
Northside Industrial Park
Route 14, Box 65B
Bowling Green, KY 42101

Comments should refer to No. MC-F-17531.

Under 49 U.S.C 11343(e), the Commission has exempted, subject to public comment, the acquisition of control, by Robert M. Pearce (a non-carrier individual) and Anthony W. Thornton (also a non-carrier individual), of T.L.T. Trucking, Inc. (T.L.T.) (No. MC-168619) and Bowling Green Freight, Inc. (Bowling Green) (No. MC-165098), respectively.

Mr. Pearce presently owns 100 percent of Bowling Green, and Mr. Thornton owns 100 percent of T.L.T. The proposed transaction involves the transfer, to Mr. Pearce, of a 50 percent interest in T.L.T., and the transfer, to Mr. Thornton, of a 50 percent interest in Bowling Green. After the transfer, each individual would thus hold a 50 percent interest in each company. Hence, Mr. Pearce would be acquiring control of T.L.T., and Mr. Thornton would be acquiring control of Bowling Green.

Bowling Green holds a certificate authorizing the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States (except Alaska and Hawaii). Bowling Green also holds a permit authorizing the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities. T.L.T. holds a permit authorizing the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities. T.L.T. also has pending an application for motor common carrier authority to transport general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States (except Alaska and Hawaii).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and

(2) Petitioners representative(s), as shown below.

MIDLANTIC NATIONAL BANK AND SEA-LAND -- CONTROL EXEMPTION -- SEA-LAND FREIGHT SERVICE, INC. AND INTERMODAL CONTAINER TRUCKING, INC.

Petitioner's representative:
G. Paul Moates, Esq.
Sidley & Austin
1722 Eye Street, N.W.
Washington, DC 20006

Comments should refer to No. MC-F-17545.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition of control by Midlantic National Bank (Midlantic), a non-carrier, of Sea-Land Freight Service, Inc. (SLFS) and Intermodal Container Trucking, Inc. (ICT). SLFS holds authority in No. MC-96612 and subnumbers thereunder to provide: (1) motor common carrier transportation of general commodities between specified points in Washington and Alaska; and (2) motor contract carrier transportation of general commodities between points in the United States, under continuing contracts with commercial shippers and receivers of those commodities. ICT holds authority in No. MC-170541 to provide motor common carrier transportation of general commodities between points in 14 States, on the one hand, and, on the other, points in the United States. ICT also holds authority as a broker arranging for motor transportation of general commodities.

The proposed transaction is related to a tender offer for Sea-Land Corporation (Sea-Land) common stock by CSA Acquisition Corp. (CSA)--a wholly-owned subsidiary of CSX Corporation (CSX)--which would ultimately result in the acquisition of Sea-Land by CSX. CSX, CSA, and Midlantic have entered into a voting trust agreement under which Midlantic has agreed to act as the voting trustee for all tendered shares of Sea-Land stock pending Commission review of the CSX/Sea-Land transaction. Sea-Land controls SLFS and ICT and therefore, Midlantic will acquire control of the two motor carriers as a result of its voting trustee position.

To avoid unlawful control by Midlantic of the two motor carriers prior to the effective date of the considered exemption, Sea-Land entered into a separate voting trust agreement with American Security Bank (American) under which American acts as voting trustee for SLFS common stock. This voting trust will be terminated when the exemption is effective.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

[49 CFR Part 1063]

Ex Parte No. MC-95 (Sub-No. 4)

PRACTICES OF MOTOR COMMON CARRIERS OF PASSENGERS --
CHECKED BAGGAGE PROHIBITIONS AND LIABILITY EXEMPTIONS

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The National Bus Traffic Association, Inc. has filed a petition requesting that the Commission modify its baggage service regulations at 49 CFR 1063.4 to allow passenger carriers to refuse to accept money as checked baggage and to disclaim liability for loss or damage to any money unknowingly accepted in checked baggage. NBTA states that carriers are liable for settlements of up to $250 for loss of money that passengers claim was contained in baggage, because under 49 CFR 1064.1(a)(1), carriers may not limit liability for lost baggage to less than $250 per adult ticket. According to NBTA, liability for lost money has exposed carriers to unprovable claims, and claim settlements are based on the honor system. It asserts that this exposure to potentially false or fraudulent claims results in significant losses.

NBTA notes that airlines generally do not honor claims for loss of money allegedly contained in checked baggage and argues that motor passenger carriers also should have such an option. This proposal appears to be a commercially reasonable approach to the potential of fraudulent claims and it warrants further consideration. The proposed approach would, according to NBTA, parallel that available to airline carriers and should not adversely affect the travelling public given the assumption that reasonable people do not put money in baggage they intend to check. The relief sought by the petition would add to the protection carriers now have to limit liability for valuable articles.

DATES: Comments must be filed by August 22, 1986.

ADDRESSES: An original and 10 copies of comments referring to Ex Parte No. MC-95 (Sub-No. 4) should be sent to:

Office of the Secretary
Case Control Branch

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To obtain a copy of the full decision, write to Office of the Secretary, Room 2215, Interstate Commerce Commission, Washington, DC 20423, or call 202-275-7428.

This action does not appear to significantly affect either the quality of the human environment or energy conservation.

The Commission certifies that adoption of these rules will not have a significant economic impact on a substantial number of small entities. To the extent that the proposed rules would relieve small passenger carriers of the burden of liability claims, this proceeding may have a beneficial impact on their finances.

The index terms for 49 CFR Part 1063 are: Aged, Blind, Buses, Handicapped, and Motor Carriers.

Decided: July 16, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

Noreta R. McGee
Secretary

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

NATIONAL INDUSTRIAL TRANSPORTATION LEAGUE -- PETITION TO INSTITUTE RULEMAKING ON NEGOTIATED MOTOR COMMON CARRIER RATES

AGENCY: Interstate Commerce Commission

ACTION: Notice of extension of time

SUMMARY: On July 3, 1986, the National Retail Merchants Association (NRMA) filed a petition requesting a 14-day extension of time to reply to a Petition to Reopen filed by Carrier Credit & Collection (CCC). CCC requested reopening for the Commission to reconsider its decision to adopt the policy statement announced at a voting conference held on May 8, 1986, in light of the recent Supreme Court decision in Square D. Co. v. Niagara Frontier Tariff Bureau, 106 S. Ct. 1922 (1986). Because of the importance of the issues involved and the need for NRMA to consult with its members, an extension is warranted.

DATES: Replies to Carrier Credit & Collection's Petition to Reopen are due by July 16, 1986.

(202) 275-7977

SUPPLEMENTAL INFORMATION:

BHB, a licensed property broker, holds License No. MC-177195, issued November 6, 1984, authorizing it to engage in operations in interstate or foreign commerce, as a broker of general commodities (except household goods), between points in the United States. BHB and its motor carrier affiliate, Black Horse Carriers, Inc. (BHC) (MC-177187), are now controlled by Gerald T. Niedert (Mr. Niedert) (an individual and a non-carrier).

The proposed transaction contemplates (1) the acquisition of control of BHB and BHC by Niedert Terminals, Inc. (NTI) (a non-carrier), and (2) the acquisition of control of NTI by Leaseway. NTI already controls two motor carriers: Fleet Carriers Inc. (FCI) (MC-156645) and Niedert Freight, Inc. (NFI) (MC-34156).

The motor carrier aspects of the proposed transaction -- i.e., the acquisition of control of BHC by NTI, and the acquisition of control of NTI by Leaseway -- are under consideration in No. MC-F-17615. The instant application seeks approval of the change in control of BHB that will occur as a consequence of its acquistion by NTI, and of NTI's acquisition by Leaseway. This application has been filed under 49 CFR 1181.32(b), which provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest."

Applicants contend that the change in control of BHB will be in the public interest since it will allow BHB to continue to perform service to the public as a property broker as part of a well established and highly experienced family of transportation enterprises. These enterprises include, in addition to BHC, FCI, and NFI, the 38 other regulated transportation entities already controlled by Leaseway: three property brokers -- A to Z Cartage, Inc. (MC-156031); Quick Connection Brokers Systems, Inc. (MC-183088); and Gold Star Enterprises, Inc. (MC-182125); one property broker/water carrier -- Leaseway International Corp. (MC-165979 and W-1402); and 34 motor carriers -- AMAC Trucking, Inc. (MC-140619); Anchor Motor Freight, Inc. (MC-808); Automotive Transportation Systems, Inc. (MC-183196); Better Home Deliveries, Inc. (MC-150511); Charlton Transport (Quebec) Limited (MC-141250); Contract Trucking Corporation (MC-156146); Cryogenic Carriers, Inc. (MC-157690); Custom Deliveries, Inc. (MC-142693); Dedicated Freight Systems, Inc. (MC-139583); Fleet Transport Company, Inc. (MC-103051 and MC-114106); Geo. McNeil Teaming Company (MC-153315); Leaseway Customized Transport, Inc. (MC-143308); Gypsum Haulage, Inc. (MC-112113); Inter-City Trucking Service, Inc. (MC-28658); LDF, Inc. (MC-147101); Leaseway Bulk Services, Inc. (MC-96630); Leaseway Deliveries, Inc. (MC-164713); Leaseway Intermodal, Inc. (MC-144901); Leaseway Motorcar Transport Company (MC-10345); Leaseway TRM, Inc. (MC-182557); Leaseway Trucking, Inc. (MC-153610); Max Binswanger Trucking (MC-116314); Midwestern Distribution,

Inc. (MC-128273); Mitchell Transport, Inc. (MC-124212); Pep Lines Trucking Co. (MC-120184 and MC-135280); Refiners Transport & Terminal Corporation (MC-50069); Signal Delivery Service, Inc. (MC-108393); Stam-Win, Inc. (MC-147294 and MC-150185); Sugar Transport, Inc. (MC-115924); United Home Delivery, Inc. (MC-153658); Vernon Equipment, Inc. (MC-150412); Gross & Hecht Trucking, Inc. (MC-59806); Mountainside Transport, Inc. (MC-13267); and Gold Star, Inc. (MC-148560).

Public comment is invited on the question, whether the change in control of BHB, as above described, is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Ex Parte No. MC-43 (Sub-No. 19)

LEASE AND INTERCHANGE OF VEHICLES
(DOCUMENTS IN LIEU OF RATED FREIGHT BILLS)
[49 CFR Part 1057]

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission proposes to revise 49 CFR 1057.12(g). The present regulation requires that leases between authorized carriers and owner-operators include a provision that the carrier provide a copy of the rated freight bill before or at the time of settlement to those owner-operators whose revenue is based on a percentage of the gross revenue for a shipment. The proposed rule would allow carriers the option of providing either: (1) a copy of the rated freight bill (or, in the case of contract carriers, another form of documentation); or (2) an alternative, computer-generated document that contains the same information that would appear on a rated freight bill.

DATES: Comments are due on September 15, 1986.

ADDRESS: Send an original and, if possible, 10 copies of comments referring to Ex Parte No. MC-43 (Sub-No. 19) to:

Case Control Branch
Office of the Secretary
Interstate Commerce Commission
Washington, D.C. 20423

FOR FURTHER INFORMATION CONTACT:

Paul W. Schach (202) 275-7885 or Mark Shaffer (202) 275-7805

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To obtain a copy of the full decision, write to Office of the Secretary, Room 2215, Interstate Commerce Commission, Washington, DC 20423, or call (202) 275-7428.

ENVIRONMENTAL AND ENERGY CONSIDERATIONS

This action does not appear to affect significantly either the quality of the human environment or the conservation of energy resources.

INITIAL REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that the proposed rule will not have a significant economic impact on a substantial number of small entities. It should reduce, albeit only minimally, administrative costs for many carriers.

INDEX

The index terms for 49 CFR Part 1057 are as follows: motor carriers, owner-operators, and equipment leasing.

Decided: July 22, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Commissioner Andre concurred with a separate expression.

Title 49 of the Code of Federal Regulations is proposed to be amended as follows:

PART 1057-[AMENDED]

1. The authority citation for 49 CFR Part 1057 would continue to read as follows:

Authority: 49 U.S.C. 11107 and 10321, 5 U.S.C. 553.

2. Paragraph (g) of §1057.12 is proposed to be amended as follows:

§1057.12 Written lease requirements.

x x x x x

(g) Copies of Freight Bill or Other Form of Freight Documentation. When a lessor's revenue is based on a percentage of the gross revenue for a shipment, the lease must specify that the authorized carrier will give the lessor, before or at the time of settlement, a copy of the rated freight bill or a computer-generated document containing the same information, or, in the case of contract carriers, any other form of documentation actually used for a shipment containing the same information that would appear on a rated freight bill. When a computer-generated document is provided, the lease will permit lessor to view, during normal business hours, a copy of any actual document underlying the computer-generated document. Regardless of the method of compensation, the lease must permit lessor to examine copies of the carrier's tariff or other document from which rates and charges are computed. The authorized carrier may delete the names of shippers and consignees shown on the freight bill, or other form of documentation.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under service date of May 12, 1986, a waiver similar to that sought here was granted to all affiliates of Contrans Corporation, except Lyons Van Lines, Inc. and Lincoln Moving & Storage, Inc. Contrans Corporation is currently operating these carriers under temporary authority and is desirous of including the operations within the ambit of the relief granted in the previous waiver.

Petitioners wishing to optimize utilization of the corporate family fleet of vehicles, will employ prudent exchanges of equipment between all members of the group. In an attempt to obtain the maximum potential efficiencies and economies of such exchanges, waiver is sought of those portions of the leasing regulations viewed as creating an unnecessary administrative burden on the carriers.

Dispatch records and operational logs maintained within the corporate family are available at all times to verify changes in control and responsibility for the operation of the individual vehicles. For these reasons, the petitioners urge that vehicle identification requirements set forth in Section 1057.22(a) and the issuance of receipts required by Section 1057.22(c)(2)and (4) be waived, as not needed in the public interest, when equipment is exchanged within the Contrans Corporation family of carriers.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc., MC-170981 , Global Van Lines, Inc., MC-41089, Lyons Van Lines, Inc., MC-5428, and Lincoln Moving & Storage, Inc., MC-339, all members of the Contrans Corporation motor carrier group, for waiver of Sections 1057.22(a) and the portion of 1057.22(c)(2) and (4) involving equipment receipts, is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

LAWRENCE TRANSPORTATION SERVICES, INC.,
CARRIERS RED WING TRANSPORTATION CORPORATION, MC-129166 AND MC-148036,
T-LINE, INC., MC-147913, AB LINES, INC., MC-162108

Decided: July 23, 1986

Lawrence Transportation Services, Inc., a non-carrier, and its affiliated motor carriers, Red Wing Transportation Corporation, MC-129166 and MC-148036, T-Line, Inc., MC-147913, and AB Lines, Inc., MC-162108, petition for waiver of Section 1057.22(a) and a portion of Sections 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

We Find:

The operating motor carrier petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under permits or certificates issued by this Commission. Petitioner AB Lines, Inc. is a wholly owned subsidiary of T-Line, Inc. Common control of the petitioners has been approved by the Commission in dockets MC-F-15131 and MC-F-15915.

This network of carriers, through its joint control system, exchange equipment between themselves an estimated 40 times each month. Waiver of the regulations as requested is viewed as resulting in greater efficiency of operations, savings in time, energy and money, improved service to customers, reduced rates, and the elimination of paperwork.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with itsobligation under the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Red Wing Transportation Corporation, MC-129166 and MC-148036, T-Line, Inc., MC-147913, and AB Lines, Inc., MC-162108, all members of the Lawrence Transportation Services, Inc. group of motor carriers of property, for waiver of Section 1057.22(a) and Sections 1057.22(c)(2) and (4) as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) is granted from the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

COUGAR EXPRESS LINES, INC., MC-165809
TRANSAMERICAN TRUCKING SERVICE, INC., MC-149576

Decided: July 23, 1986

Cougar Express Lines, Inc., MC-165809 and Transamerican Trucking Service, Inc., MC-149576 petition for waiver of Section 1057.22(a) and a portion of Section 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

We Find:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under authorities granted by this Commission.

It is anticipated that a decision in MC-F-17381 will grant an exemption from the statutory requirements of 49 U.S.C. § 11343 and thus authorize common ownership and control of the petitioners. Although the carriers will retain separate identities,management functions involving equipment use and safety will be among those jointly and uniformly administered.

Dispatch records and operational logs will be maintained in a manner that will enable the identification of vehicle ownership, control, and service assignment at all times.

In the interest of total fleet economy and efficiency, the petitioners are seeking relief from administrative burdens for which they see no regulatory need where common ownership and control are involved. It is intended that master leases will also be utilized to further enhance the economies anticipated through a granting of the relief sought.

We further find a granting of the requested waiver to be appropriate and consistent with past Commission practice and obligation under the National Transportation Policy. Denial of such regulatory relief, would offer no more protection to the public and would present greater efficiency, fuel economy, and costs savings.

It is Ordered:

1. The petition of Cougar Express Lines, Inc., MC-165809 and Transamerican Trucking Service, Inc., MC-149576, for waiver of Section 1057.22(a) and Section 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

Ex Parte No. MC-41

IDENTIFICATION OF MOTOR VEHICLES

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Commission is proposing to eliminate the vehicle identification requirements for equipment with a capacity of six or fewer passengers when engaged in luxury-type limousine passenger service. Carriers offering and passengers using this type of specialized service have found that the identification of vehicles, as required by Part 1058 of Title 49 Code of Federal Regulations, detracts materially from the exclusive luxury nature of the service. The privacy and luxury image of the service is nullified by the use of the required identification of vehicles, which restricts the carrier's marketability of the service. The Commission is also proposing to eliminate an unnecessary prohibition against the use of identification plates formerly issued by the Interstate Commerce Commission.

DATES: Comments must be submitted by September 3, 1986.

ADDRESS: An original and 15 copies of comments should be sent to:

Office of the Secretary
Case Control Branch

FOR FURTHER INFORMATION:

Roy M. Wilkins
(202) 275-7639

SUPPLEMENTARY INFORMATION:

The current regulations, 49 CFR Part 1058, were established by orders of the Commission dated May 7, 1937, with amendments effective September 30, 1943, September 1, 1947, and January 3, 1955. The requirements are applicable to vehicles used in both property and passenger transportation performed under authority granted by the Commission.

In recent years a market has developed for a specialized type of passenger service which differs from the normal charter, special, or regular route transportation. The service utilizes limousine type vehicles with a limited passenger capacity as opposed to the service performed with buses, vans, mini-buses or even so called "stretched-limos" used for service to and from airports.

The specialized type of service being requested and offered is identified as being of a luxury nature. Privacy for the passenger or smaller passenger groups is a prime characteristic. Also, amenities not available on the usual passenger surface vehicles are made available. The service might be compared to that offered by the executive or corporate jet aircraft when compared with commercial airline travel.

Carriers offering and passengers using this type of specialized service have found that the identification of vehicles, as required by Part 1058 of Title 49 Code of Federal Regulations, detracts materially from the exclusive luxury nature of the service. The privacy and luxury image of the service is nullified by the use of the required identification of vehicles, which restricts the carrier's marketability of the service.

When limousines are engaged for this type of service,arrangements are usually made well in advance of the need. The details of the personalized service required, as well as time and place itineraries, eliminate any need for the person or persons using the service to be able to identify the vehicle by visible markings. The licensing requirements of the jurisdiction in which the vehicles operate, or are domiciled, is viewed as sufficient identification.

For these reasons, the Commission is proposing to eliminate the vehicle identification requirements for limousine type vehicles of six or less passenger capacity, when used in a luxury type transportation service for passengers.

The Commission also proposes to remove the regulation found at 49 CFR §1058.6; Use Of Identification Plates Prohibited. Identification plates were required by Commission order of May 7, 1937 (amended September 30, 1943). After the current vehicle identification regulations became effective on September 1, 1947, the display of these I.C.C. identification plates was prohibited. Thus the use of these plates has been banned for 38 years. No new I.C.C. identification plates have been issued during that period or are contemplated in the future. It is therefore being recommended that this obsolete regulation be eliminated from 49 CFR Part 1058.

ENERGY AND ENVIRONMENTAL CONSIDERATIONS

This action will not have an adverse effect on either the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that these rules will not have a significant economic impact on a substantial number of small entities. The proposed rule revisions will meet the needs of passengers as required under the National Transportation Policy at 49 USC §10101(2)(A), and will eliminate unnecessary regulations.

INDEX

The subject involved in 49 CFR Part 1058 is: Motor carriers.

SUMMARY

We propose to adopt the rules set forth in Appendix A, redesignating the existing regulation at §1058.5 as §1058.5(a), adding a new §1058.5(b) and removing §1058.6.

Decided: July 25, 1986.

EX PARTE No. MC-37 (Sub-No. 38)

PETITION TO ESTABLISH A COMMERCIAL ZONE OF CAMERON, HIDALGO, STARR, AND WILLACY COUNTIES, TX

Decided: July 29, 1986

The American Trucking Associations, Inc. (ATA), jointly with the Specialized Carriers and Rigging Association, seeks reconsideration of our decision in this proceeding. The Rio Grande Valley Chamber of Commerce and the RGV Trucking Coalition, jointly, and the City of Harlingen, TX, the Harlingen Industrial Foundation, and the Harlingen Chamber of Commerce, jointly, (collectively, respondents) replied.

BACKGROUND

In our prior decision, we amended our regulations at 49 CFR 1048 to define specifically a commercial zone embracing the four southernmost Texas counties (Cameron, Hidalgo, Starr, and Willacy) for transportation by motor property carriers. 133 M.C.C. 530 (1985); 51 Fed. Reg. 1815 (January 15, 1986). We had instituted the proceeding in response to a petition filed jointly by the Rio Grande Valley Chamber of Commerce and the RGV Trucking Coalition (petitioners), seeking definition of a commercial zone for the transportation of property that would reflect the high degree of economic integration and commercial and demographic unification of the Rio Grande Valley area along the Texas-Mexican border.

We considered comments from 35 parties and concluded that an expanded four-county commercial zone would meet the statutory criteria that commercial zones of municipalities must: (1) be geographically proximate to ("adjacent to") the municipalities; and (2) reflect a sufficient degree of economic interaction with (be "commercially a part of") the municipalities. 49 U.S.C. 10526(b)(1). We discussed the Rio Grande Valley area's geography and demographics, and made a point-by-point evaluation of the eight factors traditionally considered to determine a zone's economic and commercial integration, confirming the commercial integrity of the four-county area, and, thus, its identity as a unified commercial zone. See Commercial Zones and Terminal Areas, 128 M.C.C. 422, 461 (1976), aff'd sub nom. Short Haul Survial Committee v. United States, 572 F.2d 240 (9th Cir. 1978); Washington, D.C. Commercial Zone, 132 M.C.C. 38, 45 (1980). We also found that the expanded commercial zone in the Rio Grande Valley and expanded service opportunities for Mexican operators would not harm the competitive interests of American motor property carriers.

Finally, we concluded that increased access by Mexican passenger carriers to Texas markets within the expanded commercial zone would significantly disadvantage the region's domestic passenger carrier industry "and would contravene critical transportation policy goals, particularly those that promote safe transportation, that enable efficient and well-managed carriers to earn adequate profits, attract capital, and maintain fair wages and working conditions, and that encourage intrastate bus service and service to small communities." 133 M.C.C. at 544. Accordingly, we did not make the expanded zone applicable to passenger transportation.

The ATA requests that we reconsider our decision to apply the four-county commercial zone to regulated property transportation conducted by foreign carriers subject to the 1982 licensing moratorium.1/ It argues that only domestic property carriers and those Mexican carriers subject to the foreign motor carrier certificate of registration requirements of Section 226 of the Motor Carrier Safety Act of 1984 (MCSA) should be permitted to take advantage of the four-county commercial zone. The ATA maintains that our reasoning and logic for excluding passenger carrier operations from the expanded commercial zone "is equally applicable to the exclusion of the transportation of regulated commodities by Mexican for-hire carriers from the new zone." (Petition for Reconsideration, at 2.)

The ATA points out that Mexican for-hire, regulated property carriers, like passenger carriers, are not subject to Section 226 of the MCSA and, thus, are not required to establish their safety fitness or to provide proof of minimum financial responsibility as a condition to entering the United States. It argues that by prohibiting Mexican for-hire, regulated property operations within the expanded commercial zone we would further the MCSA goal of preventing unsafe foreign carrier operations.

The ATA also argues that the same public interest considerations that warranted exclusion of passenger carrier operations from the expanded commercial zone also should prevent the transportation of regulated commodities by Mexican carriers beyond the previously recognized commercial zones for border municipalities. Its position is that extension of the commercial zone boundaries of border municipalities was not necessary to restore the Rio Grande Valley's commercial status quo for regulated commodity transportation by Mexican carriers as was the case for Mexican private and exempt commodity carriers subject to the Section 226 territorial service limitations.2/

Respondents assert that the ATA waived its right to appeal the issue of Mexican for-hire transportation of regulated commodities in border commercial zones by not seeking reconsideration of the issue in Applications for Certificates of Registration for Certain Foreign Carriers, 133 M.C.C. 511 (1985), appeal docketed sub nom. Rio Grande Valley Chamber of Commerce v. United States, Nos. 85-1409 and 1411 (D.C. Cir. filed July 8, 1985) (Applications for Certificates).3/ In the alternative, respondents urge that the petition be denied because the ATA has failed to establish that it was prejudiced in presenting its position when we previously considered this matter, that our prior decision contains material error, or that new evidence or changed circumstances warrant reconsideration.

Respondents also contend that the ATA has misrepresented the basis for our decision by focusing exclusively on our statement about preserving the pre-MCSA operational status quo for Mexican private and exempt commodity carriers. They point out that the purpose for which we established the four-county zone was to recognize the Rio Grande Valley as an integrated economic unit.

Finally, respondents assert that exclusion of Mexican for-hire transportation of regulated commodities from the expanded commercial zone would have adverse economic consequences that could impair the region's commercial development and jeopardize service opportunities that otherwise would be available to domestic trucking interests, including many ATA affiliates. Harlingen's reply discusses two potential commercial projects: one involving movement of insulation board from Mexico to the Port of Harlingen for loading onto hopper barges and further movement to Florida; the other, a long-term Department of the Army truck manufacturing contract. Harlingen argues that both would be threatened by the additional cost of interlining between Mexican and American carriers at border crossing points if Mexican carriers scheduled to be used for the projects were excluded from the expanded commercial zone. These examples, respondent concludes, undermine the ATA's position that domestic carriers would benefit competitively from handling traffic in the expanded zone that Mexican carriers would be precluded from serving. Harlingen points out that the prohibitive cost of interlining would embargo cross-border commercial zone traffic, not create opportunities for American carriers, and that lost industrial development would cause American carriers to lose opportunities for traffic that would otherwise result from such development.

DISCUSSION AND CONCLUSIONS

The ATA should not be estopped from seeking reconsideration concerning the treatment of Mexican for-hire, regulated commodity carriers because it did not do so in Applications for Certificates, supra. In that proceeding, we found Mexican carriers of regulated commodities not subject to Section 226 of the MCSA. This permitted continued commercial zone operations by Mexican for-hire carriers of regulated property. The proceeding was not concerned with the size of the zones that those carriers should be allowed to serve.

Although ATA's failure to challenge our earlier findings regarding the non-applicability of the MCSA to Mexican for-hire carriers of regulated commodities does not bar its petition here, it does undercut ATA's argument that inclusion of Mexican carriers of regulated commodities in the expanded commercial zone is inconsistent with congressional intent. For if, as we have previously found, Congress in passing the MCSA did not intend to alter access to border commercial zones by foreign carriers of regulated commodities, there can be no congressional intent inferred to support excluding such carriers from access to a properly expanded commercial zone. Indeed, Congress recognized that the concept of commercial zones is not an inflexible one, and that the sizes of commercial zones can expand in response to technological and commercial advances and changes in economic relationships and transportation patterns. As we stated in our prior decision, "In the absence of a specific directive from Congress or overriding public interest considerations to the contrary, neither of which is present on this record, we are obliged to observe the statutory mandate

that commercial zones accurately reflect a region's economic integrity by embracing all parts of a business community." 133 M.C.C. at 541. The ATA has not shown that our definition of a four-county commercial zone does not reflect an economically integrated Rio Grande Valley area.

Not only is inclusion of operations by Mexican carriers of regulated property in the new commercial zone consistent with the MCSA, it also complies with our well-established standards governing commercial zones. We noted in our prior decision in this proceeding that commercial zones are not "created" by the Commission. Rather, their boundaries are defined as an economic fact by reason of trade practices, commercial relationships, and geographic, social, and political considerations. 133 M.C.C. at 540. See, e.g., Commercial Zones and Terminal Areas, 83 M.C.C. 492 (1960). Once the appropriate limits of a commercial zone have been identified by such factors, a strong public interest and transportation policy basis must be established to remove the statutory partial exemption from any portion of the zone or as to any type of transportation. See Commercial Zones and Terminal Areas, supra, 128 M.C.C. at 460; Washington, D.C. Commercial Zone, supra, 132 M.C.C. at 45. Compare, Commercial Zones and Terminal Areas, 53 M.C.C. 451, 471 (1951). The ATA has failed to establish such a basis for excluding transportation by Mexican for-hire carriers of regulated commodities from the four-county commercial zone.

We agree with the ATA that Mexican for-hire, regulated property carriers, like passenger carriers, are not subject to Section 226 certificate of registration provisions and could use the expanded commercial zone to increase their competitive presence in this country. In fact, our prior decision specifically discussed the limited foreign carrier service categories subject to Section 226, and acknowledged increased competition, both foreign and domestic, as a natural consequence of identifying expanded commercial zone boundaries. 133 M.C.C. at 540-542. However, the same public interest considerations that supported our decision to exclude passenger carrier operations from the expanded commercial zone exemption do not pertain to regulated commodities transportation.

The ATA's concern that safe transportation and profitable domestic carrier operations will be jeopardized by Mexican for-hire, regulated property carriers that take advantage of the expanded commercial zone limits is not substantiated. Its petition contains virtually the same evidence introduced previously in its comments. This evidence was fully considered in our prior decision. Absent from the record is evidence showing that Mexican carriers that would operate in an expanded commercial zone would tend to be less safe than those that have been operating in other border commercial zones. Most notably lacking is any evidence showing that competition from Mexican for-hire, regulated property carriers will diminish service opportunities for American carriers to a degree that would undermine domestic transportation, such as was demonstrated concerning the passenger service market.

The only example offered by the ATA is a general reference to oil field equipment traffic that has been handled by American carriers from Mexican border points to domestic locations. The ATA expects that this traffic will be lost to Mexican carriers that can deliver the oil field commodities in single-line service from Mexican production sites, through the border commercial zones where the traffic previously was interlined with American carriers, to domestic locations. However, because the ATA has provided neither the volumes nor the origins and destinations of this traffic, we cannot assess the merits of its concern. But we do note that only if this traffic involves movements between points within commercial zone limits on both sides of the Texas-Mexican border would it be considered exempt commercial zone traffic, lawfully transportable by Mexican carriers.

By contrast, respondents foresee heightened production and enhanced economic conditions within the region. They report several major commercial and industrial development projects that they attribute to our recognition of an expanded, commercially integrated four-county trade area. They argue presuasively that excluding Mexican for-hire, regulated property transportation from the commercial zone exemption would result in higher costs related to transshipping from Mexican points into the four-county area and cessation of some transportation that would be prohibitively expensive without the Mexican carriers. Corresponding declines in Rio Grande Valley production predictably would eliminate many opportunities for American carriers to serve from the four-county area to other points in the United States.

We concluded in our prior decision that changes projected by the ATA in the region's competitive balance were not sufficient to exclude Mexican for-hire, regulated property carriers from the expanded commercial zone exemption. We find no basis for changing that conclusion. Our identification of the zone is not shown to be inconsistent with the purposes of Section 226. Therefore, the petition is denied.

ENVIRONMENTAL AND ENERGY CONSIDERATIONS

This decision will not affect significantly the quality of the human environment or the conservation of energy resources.

It is ordered:

The petition for reconsideration filed by the American Trucking Associations, Inc. and the Specialized Carriers and Rigging Association is denied.

FOOTNOTES

1. The foreign motor carrier licensing moratorium, implemented for a 2-year period by the Bus Regulatory Reform Act of 1982 (Pub. L. No. 97-261) and extended for an additional 2 years by the Motor Carrier Safety Act of 1984 (Pub. L. No. 98-554), is codified at 49 U.S.C. 10922(1). The moratorium pertains to carriers of countries contiguous to the United States, but has been lifted by Presidential action with respect to Canadian carriers, so that presently only Mexican carriers are affected.

2. Section 226(b) limits the service territory of Mexican owned or controlled private and exempt commodity carriers domiciled in Mexico to the border commercial zones.

3. We concluded that Section 226 of the MCSA did not alter the commercial zone exemption of 49 U.S.C. 10526(b)(1) with respect to Mexican for-hire carriers of regulated commodities, and that the status quo remains as to such transportation. 133 M.C.C. at 512-513. This transportation includes movements between "Maquilla" plants in Mexico and the United States. The ATA did not challenge our decision, which is administratively final. Respondents Rio Grande Valley Chamber of Commerce and the RGV Trucking Coalition have appealed the Applications for Certificates decision to the United States Court of Appeals for the District of Columbia Circuit in Nos. 85-1409 and 85-1411. The matter is being held in abeyance by the Court of Appeals pending final disposition of this proceeding.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

SUPPLEMENTAL INFORMATION:

Ryder, which itself holds authority to operate as a property broker (No. MC-130685 (Sub-No. 1)), already controls 19 regulated transportation entities: three property brokers -- Ryder Freight Management, Inc. (No. MC-3468), Ryder Backhaul Support Services, Inc. (No. MC-168004), and Eads Transfer & Storage Co. (No. MC-12419); and 16 motor carriers -- Commercial Carriers, Inc. (No. MC-43048), Complete Auto Transit, Inc. (No. MC-49368), Janesville Auto Transport, Inc. (No. MC-119642), M & G Convoy, Inc. (No. MC-20722), Customized Parts Distribution, Inc. (No. MC-136291), DPD, Inc. (No. MC-140902), Interstate Rental, Inc. (No. MC-141804), Action Distribution, Inc. (No. MC-169799), Interstate Contract Carrier Corporation (Nos. MC-134599 and MC-139906), Tennessee Cartage Co., Inc. (No. MC-115654) DSI, Inc. (No. MC-173311), RPD, Inc. (No. MC-136051), F. J. Boutell Driveaway Co., Inc. (No. MC-3468), Blazer Truck Lines, Inc. (No. MC-151557), Fleet Carrier Corporation (No. MC-41136), and Ryder Transport, Inc. (No. MC-191534).

Ryder's non-carrier subsidiary, RYDERCORP, has commenced a cash tender offer for all of the outstanding shares of Saunders System, Inc. (Saunders) (a non-carrier), and has already entered into stock purchase agreements for a majority of Saunders' stock. RYDERCORP will ultimately be merged into Saunders, and Saunders will continue to exist as a subsidiary of Ryder.

Saunders presently controls two regulated transportation entities: one motor carrier -- Saunders Carriers, Inc. (No. MC-116254); and one property broker -- TIC (No. MC-130973).

Ryder's acquisition of control of Saunders Carriers, Inc., is the subject of an exemption proceeding in No. MC-F-17613 (published in the ICC Register on July 14, 1986). Ryder's acquisition of control of TIC is the subject of the instant proceeding.

TIC's License No. MC-130973, issued April 22, 1981, authorizes it to engage in operations, in interstate or foreign commerce, as a broker, arranging for the transportation of general commodities (except household goods), between all points the United States.

Our regulation at 49 CFR 1181.32(b) provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." The record suggests that the proposed change in control of TIC will be beneficial to all concerned, as it will make TIC a part of the well-managed family of enterprises that Ryder already controls.

Public comment is invited on the question, whether the change in control of TIC is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

90-Day Intrastate Motor Common Carrier of Passenger Applications

The following applications are governed by 49 CFR Part 1168. For compliance procedures, see 49 CFR 1168.6 and 49 U.S.C. 10922(c)(2)(E). All applications are filed under 49 U.S.C. 10922(c)(2)(A) for authority to operate as a motor common carrier of passengers in intrastate commerce on a route over which applicant had interstate, regular-route authority as of November 19, 1982.

Persons wishing to oppose an application must follow the rules at 49 CFR Part 1168.4. In addition to fitness grounds, applications may be opposed on the grounds that the transportation to be authorized would directly compete with a commuter bus operation and would have a significant adverse effect on all commuter bus service in the area in which the competing service will be performed.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 25 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 30 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Findings: The findings for these applications are set forth at 49 CFR 1168.7.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. Ex Parte No. MC-128

REVENUE NEED STANDARDS IN MOTOR CARRIER
GENERAL INCREASE PROCEEDINGS

Decided: August 8, 1986

This proceeding was remanded to the Commission by order of June 8, 1984, from the United States Court of Appeals for the District of Columbia Circuit "for a fuller statement of [the Commission's] reasons for discontinuing the investigation proceedings in I & S Docket No. 29772, General Increase, S.M.C.R.C., April 1978, (SMCRC) and consolidated cases, or in the alternative, for further proceedings therein."

Background

The Commission initiated this proceeding in 1979 to investigate standards for evaluating general rate increase proposals filed by motor common carriers of general commodities. This action followed the Commission's even split on whether or not to adopt the conclusions reached in a decision of November 28, 1978, in SMCRC, the lead case in an investigation of all the general increases filed in April 1978, by the major motor carrier bureaus. Following the institution of the MC-128 proceeding, SMCRC and the related 1978 investigation cases were all held in abeyance, pending adoption of standards in MC-128, and the record developed in those cases was incorporated into the later proceeding.

After receiving extensive comment from members of the industry and other interested persons, the Commission, in Ex Parte No. MC-128, Revenue Need Standards in Motor Carrier General Increase Proposals (not printed), decided July 14, 1985, discontinued that rulemaking proceeding, finding that promulgation of specific standards for use in all cases involving general rate increase proposals filed by motor carriers of general commodities was not warranted. The Commission explained its decision to discontinue the MC-128 rulemaking at length, giving four principal reasons: (1) the record did not provide a basis for adopting any single standard of revenue need; (2) the new "rule of ratemaking" for motor carriers, enacted in the Motor Carrier Act of 1980 (MCA) [see 49 U.S.C. 10701(e)], afforded statutory guidance on motor carrier revenue standards that was not available when MC-128 was initiated; (3) the MCA had produced a significantly more price competitive environment, undermining the significance of general increases; and (4) the future of collective ratemaking appeared uncertain.

In the same decision the Commission discontinued the related investigations stating:

> The investigation proceedings in SMCRC and consolidated cases which were incorporated into this proceeding and held in abeyance... have been effectively rendered moot by numerous subsequent general increases as well as the economic changes in the industry (as discussed above) that have occurred since 1978.6/
>
> 6/ In the decision of November 27, 1978, in the SMCRC case, we concluded that 6.2 percent increase proposed in that case was unreasonable to the extent that it exceeded 3.5 percent, based on application of the standards tentatively adopted in that decision. In a Notice of Correction issued Dececember 13, 1978, that figure was adjusted to 2.87 percent. Thereafter, on petitions for reconsideration, the Commission split evenly on whether to adopt the standards applied in the SMCRC case, and the SMCRC case and related investigations were held in abeyance.

Since those 1978 general increase proposals, we have had an opportunity to evaluate numerous subsequent general increase proposals of the Southern Motor Carrier Rate Conference and the other major rate bureaus, in each of which the carriers submitted new justification statements. Each of these subsequent increases were, of course premised on the need for revenues over the above revenue levels established following the 1978 general increases. Our evaluation of those later filed increases, based upon the most current revenue and expense data, makes it unnecessary, and in fact illogical, to attempt to reassess the 1978 general increases now.

To the extent that any person is aggrieved by motor carrier rate levels, a petition forsuspension or investigation of new rate proposals may be filed under 49 U.S.C. 10708, or existing rates may be challenged on complaint under Section 11701.

The Court of Appeals' decision of June 8, 1984, ordered the Commission to either issue a decision providing a fuller explanation of its reasons for discontinuing the 1978 investigation cases or proceed to a decision in those cases. We will comply with the court's order by elaborating on our reasons for discontinuing the SMCRC and related proceedings. 1/

Discussion and Conclusions

In our view, further proceedings in the SMCRC and related cases are not warranted. The only purpose for pursuing the 1978 investigations now would be to make a retroactive determination as to whether those increases were justified in 1978. Because the records in those cases are stale, it would make little, if any, sense for the Commission to use those 1978 investigation cases to consider the current expense and revenue situation for any of the bureaus. If we were persuaded that an investigation was warranted now, the logical course of action would be for the Commission to investigate a current general increase proposal, either sua sponte or on protest. We would then be able to evaluate the situation based on current data. See West Ohio Gas Co. v. Public Utilities Comm'n of Ohio, 294 U.S. 79 (1935) (state rate commission required to look at current data if available rather than set rates based on past earning record). We recently undertook such action in connection with a number of general increase proposals filed to be effective March 30, 1986 and later. See, e.g., I. & S. No. M-30385, General Increase, M.A.C., April 1, 1986 (investigation instituted March 27, 1986); and I. & S. M-30381, General Increase & Class Rate Restructure, C.S.M.F.B. (investigation instituted March 25, 1986) 2/.

By deciding not to pursue the 1978 investigation cases, now, we do not deprive shippers of potential refunds or reparations. Even if we were now to determine that the 1978 increases were not justified in whole or in part, we could not provide relief by ordering reparations, T.I.M.E., Inc. v. United States, 359 ICC 464 (1959), nor would an action for refunds lie, based on an equitable theory of restitution. See United States v. Associated Transp., 505 F.2d 366 (D.C. Cir. 1974). Commission orders in motor carrier general increase proceedings are prospective only.3/

Although motor carriers are liable, in a court action, for damages resulting from imposition of rates the Commission finds to be in violation of the Interstate Commerce Act, 49 U.S.C. 11705(b)(3), a Commission finding that a general rate increase has not been justified in whole or in part is not the equivalent of a finding that particular rates or tariffs, as increased through the general increase, are unreasonable or otherwise unlawful. The issue in a general increase proceeding is whether the carriers have justified the aggregate amount of the increase proposed, not whether any particular rate is reasonable. Asphalt Roofing Mfg. Ass'n v. ICC, 567 F.2d 994 (D.C. Cir 1977); see also Council on Forest Indus. v. ICC, 570 F.2d 1056 (D.C. Cir. 1978) (proper vehicle to test reasonableness of any given rate or group of rates is by complaint). Moreover, as the court explained in United States v. Associated Transp., supra, at 369, before a court can order reparations under the statute, the Commission must ascertain the reasonable rate, because the damages are measured by the exact difference between that rate and the charges paid. While a Commission finding that a particular general increase had not been justified by the bureau carriers might be relevant in a complaint proceeding challenging the reasonableness of rates, there are no pending complaint proceedings involving the reasonableness of motor carrier rates premised either on the amount of increase taken in April 1978 or on subsequent increases.

Assuming that we were now to pursue the 1978 investigations, and further assuming that we were to conclude that the increases that took effect in April 1978 were not justified, in whole or in part, for one or more of the bureaus, the Commission could perhaps order a uniform percentage rate reduction prospectively. We believe, however, that the high number of superceding general increases that have taken effect since then render the utility of now proceeding to a decision on the merits, with the possibility of such a remedy, very small. In SMCRC we indicated that our evaluation of the subsequent increases, based on the most current revenue and expense data, made it unnecessary to attempt to reassess the 1978 general increases, since each of the subsequent increases was premised on the need for revenues over and above revenue levels established following the 1978 increases. Indeed, we stated that it would have been illogical to do so. Since then, the Commission, in evaluating the more recent general increases, has had further opportunity to assess the need for revenues above the levels established following the 1978 general increases.4/ While, as earlier stated, this review is not and was not intended to be equivalent to a determination that particular rates are reasonable, it does represent an overall conclusion that the increases are justified from a cost or revenue need standpoint (subject, of course, to further study should a formal complaint be filed).

Moreover, an order requiring all bureau carriers who took the April 1978 general increases to now reduce their rates by the amount that the Commission has determined to have been unjustified would not serve any useful purpose. As the Commission discussed in its original decision, the new price competitive environment created by the MCA has led to an erosion of the general increases through widespread discounting of the bureau established rates, the filing of independent actions, and non-participation in rate bureau general increases. A 1983 Commission study5/ found that increased competition in the industry following the enactment of the MCA has led to an unprecedented increase in independent rate changes, most of which are reductions in rates. The study found that a large percentage of the more than 50 carriers commenting in the proceeding moved traffic only under rates established under independent action. It would not make any economic sense for the Commission now to attempt to grant prospective relief for any partially unjustified 1978 increases by ordering a uniform percentage decrease in rates. Such a uniform order would have significantly diverse effects on different carriers, depending on the degree to which their rates still reflect any relation to the amount of the general increases taken in 1978 or subsequently. Accord, Ex Parte No. 311, Expedited Procedures for Recovery of Fuel Costs (not printed), served May 16, 1986, slip op. at 1-2.

Finally, there is no assurance that such a prospective remedy would benefit the shippers who actually paid rates that may not have been fully justified in 1978.6/

It is ordered:

This proceeding is discontinued.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Vice Chairman Simmons concurred with a separate expression.

1/ In the Court of Appeals, petitioners argued, inter alia, that the Commission is without discretion to discontinue the investigations without a decision on the merits, relying on Minneapolis Gas Co. v. FPC, 294 F.2d 212 (D.C. Cir. 1961), wherein the court held that the agency abused its discretion by terminating an investigation of a rate increase without reaching a final decision.

We do not read Minneapolis Gas as dispositive. With the possible exception of the SMCRC case in which an initial decision was issued, none of the investigations at issue here had progressed to the same stage as the FPC decision at issue there, a significant distinction in the court's opinion. Id. at 214-15. In addition, the FPC was, of course, acting under a different statutory scheme, which included a refund provision. There is no analogous provision for refunds under our statutory framework. See discussion below at pages 3-4. In any case, subsequent court decisions have qualified the Minneapolis Gas holding by making it clear that an agency does not abuse its discretion in discontinuing an investigation without a decision on the merits where there is good reason for doing so. See Eastern Air Lines, Inc. v. CAB, 294 F.2d 235 (D.C. Cir.), cert. denied, 368 U.S. 927 (1961) (CAB did not abuse discretion in discontinuing general air fare investigation where there had been significant changes in the industry during the course of the investigation). See also Wisconsin v. FPC, 373 U.S. 294 (1963) (agency decision to discontinue investigation of company's natural gas rates on grounds, inter alia, that investigated rates had been succeeded by subsequent increases, and staleness of record, upheld); Brandenfels v. Day, 316 F.2d 375, 379 (D.C. Cir.), cert. denied, 375 U.S. 824 (1963) (agency determination to discontinue proceedings will not be upset where there is good reason therefor).

2/ Only after receipt of: (1) supplemental, revised cost and revenue evidence showing that overall revenue would not exceed a reasonable level; and (2) new requests for lesser increases (where appropriate), did we lift the suspension and investigation orders.

3/ If the Commission concludes that carriers have not met their burden, the Commission's decision typically recites that the rates "have not been shown reasonable" and orders the increase tariff cancelled.

4/ In another proceeding, we did order canceled tariff schedules that were based on earlier increases, despite numerous intervening rate restructurings, general increases, and classification changes. See Restructured Rates and Charges, Central States, 365 I.C.C. 25, 30 (1981). In that case, however, we had reached a decision on the merits of a major issue presented in the earlier investigation case; viz., the validity of a study which formed the basis for the increase. Here, we are declining to reach the merits of issues raised in the original 1978 investigation cases.

Moreover, the tariff schedules at issue in that case were intended to readjust the rate structure among classes of traffic, not, as here, to increase the overall revenue position of the carriers. Because we concluded that we could not accept or use the "platform study" on which those tariff schedules were based, we ordered the tariffs canceled prospectively, requiring the carriers to restructure or redistribute their expenses and revenues among classes of traffic, without affecting the overall revenue accruing to the carriers. The effect was to eliminate the taint of the unsupported basis for the original restructuring, and thereby reinstate the status quo ante, in terms of the relative burdens to be borne among the classes of customers.

In this situation, by contrast, we could not effectively eliminate the "taint" of an unjustified percentage increase in 1978 by ordering an across-the-board rate reduction. As discussed above, at least in theory, such a reduction would immediately produce additional "revenue need" and justify another increase proposal. That would not be the case with a rate restructuring.

As a practical matter, we believe that, to the extent that any unjustified rate increases may have crept into the rate structure through the 1978 general rate increases, the problem has been remedied through review of subsequent general increase proposals and the new price competitive rate environment. The widespread discounting cited in our original decision to discontinue the MC-128 rulemaking proceeding makes it unlikely that the motor carriers of general freight have reaped any windfall from potentially unjustified increases in 1978. It is principally for that reason that we believe it would be an idle exercise to pursue the 1978 investigations.

5/ Ex Parte No. MC-166, Pricing Practices of Motor Common Carriers of Property Since the Motor Carrier Act of 1980 (not printed), decided August 26, 1983.

6/ Cf. Inspection in Transit, Grain and Grain Products, 359 I.C.C. 624, 635-36 (1979) (decision not to award automatic refunds for unjustified rail transit charges justified, in part, on basis of difficulty in determining class of persons who actually bore the charges and confining refunds to the class).

VICE CHAIRMAN SIMMONS, concurring:

In my view, going forward with the 1978 investigations at this late date would serve little useful purpose. Nevertheless, my concurrence in today's decision should not be taken to imply that I also believe discontinuance of the rulemaking proceeding in Ex Parte No. MC-128 was appropriate. The Commission continues to receive general increase proposals from the major motor carrier rate bureaus approximately every six months. The adoption of revenue need standards to be used in processing these proposals would have been of significant assistance not only to the Commission but also to carriers and shippers. For this reasons, I regret that the Ex Parte No. MC-128 rulemaking was not carried through to completion.

Motor Carrier Applications to Consolidate, Merge or Acquire Control under 49 U.S.C. 11343-11344

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by 49 CFR 1182.1.

Persons wishing to oppose an application must follow the rules under 49 CFR 1182.2. If the protest includes a request for oral hearing, the request shall meet the requirements of 49 CFR 1182.3 and shall include the required certification. Failure seasonable to oppose will be construed as a waiver of opposition and participation in the proceeding.

In the absence of legally sufficient protests as to the finance application or to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Findings:

The findings for these applications are set forth at 49 CFR 1182.6.

Volume OP1-336
Decided: August 7, 1986
By the Commission, The Motor Carrier Board, Members Thomas, Barnes, and Hartley (Member Hartley not participating)

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON AUGUST 15, 1986

MC-F-17624, filed July 11, 1986. THE GREYHOUND CORPORATION (Greyhound) (111 West Clarendon, Phoenix, AZ 85077) - CONTROL - KERRVILLE BUS COMPANY, INC. (Kerrville) (P.O. Box 712, 429 Sidney Baker Street, Kerrville, TX 78028).

Representative: R. D. Rierson, Commerce Attornery, 1724 Greyhound Tower, Phoenix, AZ 85077.

Noncarrier Greyhound seeks authority to acquire control, through stock purchase, of motor common carrier of passengers Kerrville (MC-27530). Noncarrier the Hal and Charlie Peterson Foundation holds 60 percent of the common stock and 50 percent of the preferred stock of Kerrville, and Kerrville holds the remaining 50 percent of its preferred stock. Greyhound proposes to purchase all such stock. Its subsidiary, Greyhound Lines, Inc. (Lines) (MC-1515), also of Phoenix, now holds the remaining 40 percent of Kerrville's common stock.

In addition to Lines, Greyhound controls Vermont Transit Company, Inc. (MC-45626 and MC-133421), of Burlington, VT, and Texas, New Mexico & Oklahoma Coaches, Inc. of Lubbock, TX. Control of the three carriers was approved in MC-F-8531, MC-F-12432, and MC-F-8343, respectively.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:
